

Summer Symposium 2019

11:00 – 11:15

Welcome

11:15 – 12:00

Dr. Gabriel Krouk, CNRS, Montpellier

“A Systems View of Nitrogen Signaling Interactions”

12:00 – 13:00

Lunch Break

13:00 – 13:45

Dr. Yasin Dagdas, Gregor-Mendel Institute, Vienna

“The role of autophagy in phenotypic plasticity and cellular quality control”

14:00 – 14:45

Dr. Juan Pedro Ferrio, CITA, Zaragoza

“Stable isotopes for the study of plant water uptake and transport”

14:45 – 15:15

Coffee Break

15:15 – 16:00

Prof. Dr. Miltos Tsiantis, MPI, Cologne

“The genetic basis for diversification of leaf form: from understanding to reconstructing”

16:00 – 17:00

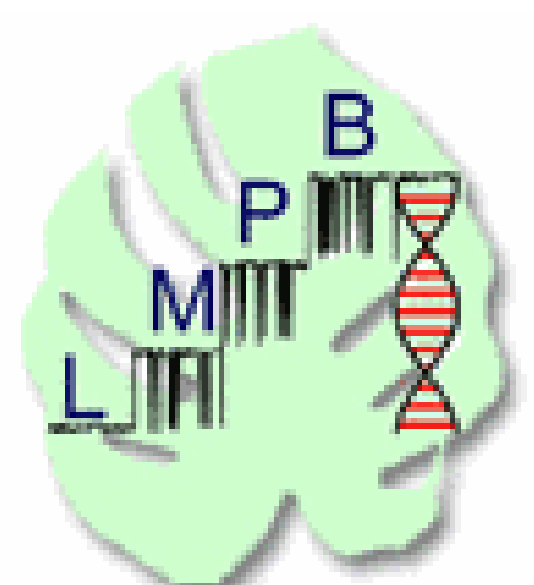

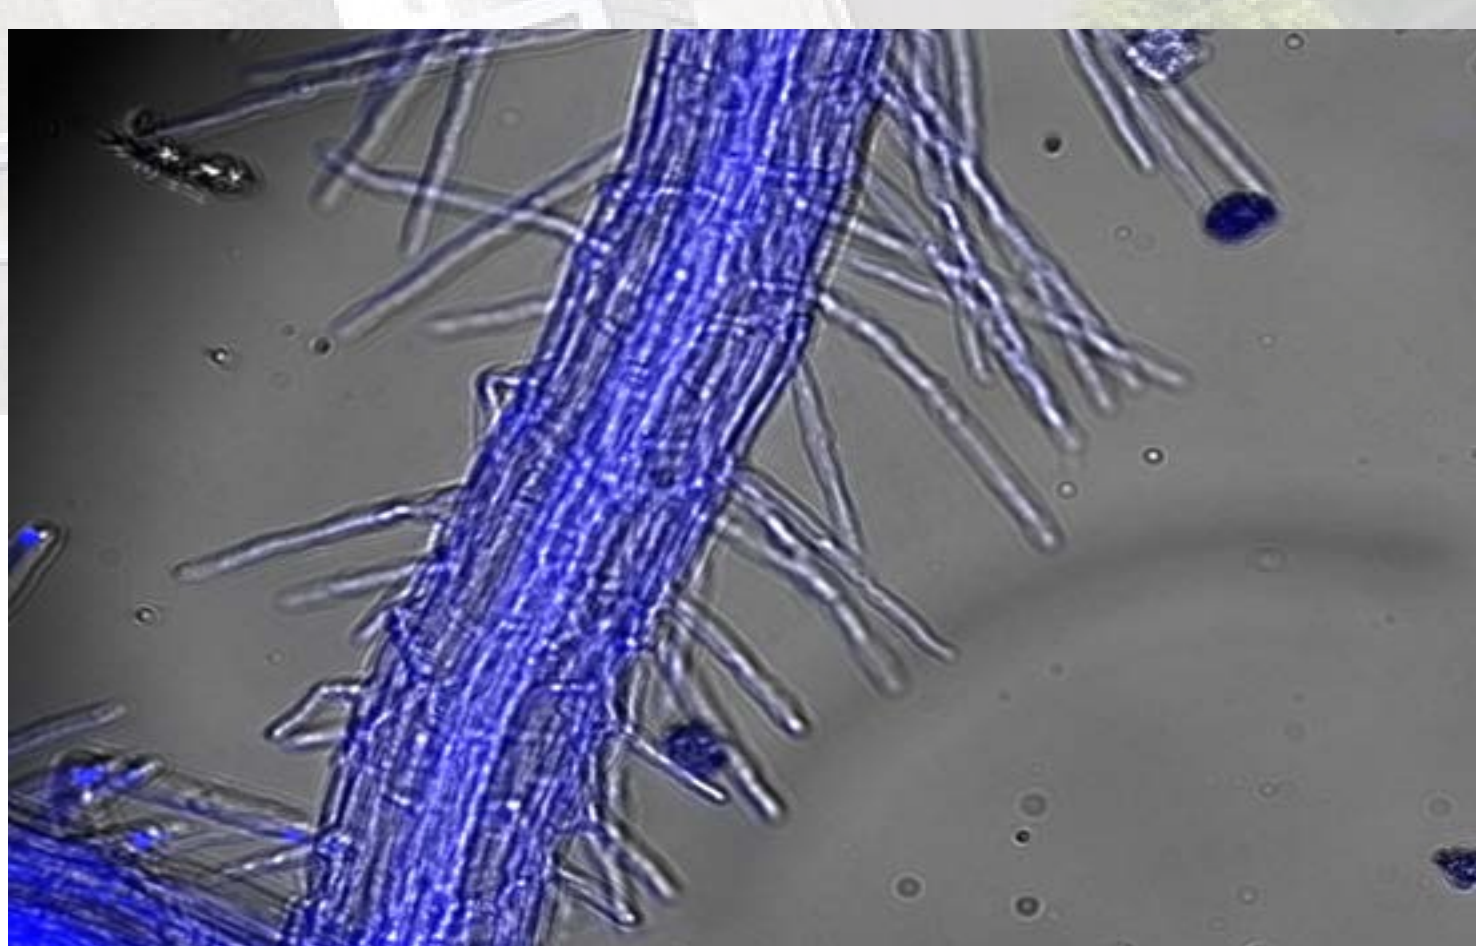

Lab visit of guest speakers and project discussion

17:00 – open end

“Meet-the-Speaker Barbecue” and get together

Thursday 25th July 2019

Members of the Biocenter and students are welcome!
