RE: Daniel DeMiguel

To Whom It May Concern,

I hereby certify the participation of Daniel DeMiguel as co-investigator in the 2021 Leakey Foundation funded research project “Dietary reconstruction of the Miocene primates from Patagonia using dental microwear and isotope analyses” for which Dr. Marcelo Tejedor is principal investigator.

If you have any questions, please do not hesitate to contact me.

Sincerely,

H. Gregory
Program Officer
The Leakey Foundation
